Performance testing is completed using a Custom Chrono, Heavy Duty ProShop Meter and digital scales (digital scales have a variance of +/- 1%). Speed ratings have been obtained with factory installed brass nock and Hush Kit. The use of these accessories decreases velocity by 5-8 fps.

IBO speed ratings are the industry standard and are calculated using an arrow weighing 5 grains per pound (350 gr) at 70# draw weight with a 30" draw. The Air Raid was tested at 75.5# draw weight.

All models feature draw length adjustments in 1/2" increments with a single rotating module. The Destroyer 350 and 340, Air Raid and Soldier has an 80% effective let-off. All other models feature an adjustable let-off range of 65% to 80%.

Add \$25 for special order camo finishes, including BlackOps. Target Colors: add \$100 for FireStorm Candy Blue and \$50 for Testarossa.

The Destroyer 350 and Destroyer 340 are available in Realtree Hardwoods HD® and BlackOps. Alternate riser finishes include APG HD, Mossy Oak® Infinity™, Optifade™ Open Country or Forest and Next FLX™. Any alternate finish will have black limbs.

The Admiral FLX, Captain and Sentinel FLX come standard in Realtree Hardwoods Green HD. Alternate finishes include APG HD, Mossy Oak Infinity, Optifade Open Country or Forest, Next FLX, BlackOps, Testarossa and FireStorm Candy Blue.

The Brigadier is standard in Realtree Hardwoods Green HD® and is also available in BlackOps, Testarossa and FireStorm Candy Blue.

The Air Raid is available exclusively in Advantage Timber® HD®.

The S.W.A.T., Sniper and Soldier come standard in Realtree Hardwoods Green HD with an option of BlackOps.
